Silicone Case for key fob type hardware tokens (C202, C203, C301i and C302i)

Part no: T2SiliconeCase · T2-75

Description

A protective Token2 Hardware token silicone case to attach it to your backpack or keychain. Our Silicone Case perfectly encloses the edges of a Token2 key fob type hardware token and protects it from scratches. In addition, this case is made of pleasantly soft silicone, which is also shock-absorbent.

Compatibility: Only applicable to C202, C203, C301-i, C301, C302-i and C302 hardware tokens. Designed specifically for these models, it fits perfectly with the token.
