TOTPRadius user license

Part no: TOTPR-CAL · T2-43

Description

About TOTPRadius

TOKEN2 TOTPRadius provides the RADIUS RFC-2865 for TOTP RFC-6238 based authentication. With TOTPRadius you can integrate a large variety of third-party products and systems with multifactor authentication. It works with numerous products and services like Cisco Meraki, Citrix XenApp/XenDesktop, VMWare View, and many others that provide support for RADIUS servers to validate the second factor for user authentication.

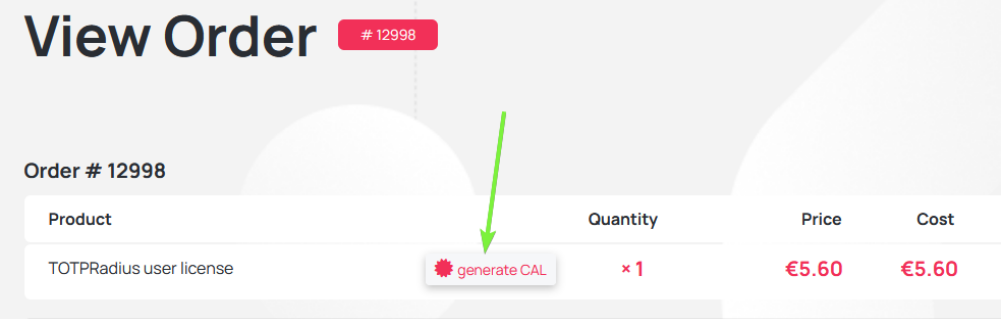
TOTPRadius user licenses are per-user and perpetual. Perpetual licenses do not expire, so you can continue to use the appliance as long as you want. Currently, these licenses are including access to product updates within the same version branch and regular technical support.

How to generate the license key

After completing the purchase you will receive an email containing the order URL. To generate the TOTPRadius user licenses, click on the "generate CAL" button on the order page and provide the Host ID. The license key will be generated and sent to your email address.



It is highly recommended trying TOTPRadius before purchasing the licenses. The appliance comes with 5 free licenses
